

FAB32LBL6

Product Family	Refrigerator
Installation	Free Standing
Category	Bottom Mount
Reference width	Until 60
Reference height	160 - 200
No-Frost system	Total
Cooling type	Total No Frost - Double Cooling system
Defrost	Automatic
Hinge type	Standard
Hinge position	Left
EAN code	8017709350062

Aesthetics

Aesthetics	50's Style	Side material	Steel
Colour	Black	Side colour	Black
Finishing	Gloss	Logo	Applied
Design	Rounded	Door shelves profile colour	Chrome
Material	Heat-moulded	Drawers profile colour	Chrome
Handle	External	Colour of glass shelf profile	Chrome
Handle type	Fixed	Display	LED
Handle colour	Chrome	Display position	Interior (on the top)
Logo colour	Chrome	Colori disponibili	Orange, Pastel blue, White, Blue, Black, Cream, Pink, Red, Silver, Pastel green, Lime green

Refrigerator compartment features

No. of adjustable shelves	2	Type of crisper/vegetable drawers cover	Glass
Number of fruit and vegetables drawers	1	No. of lights	2
Type of adjustable shelves	Glass	Internal light in fridge	Yes
		Type of internal light (fridge)	LED

Type of crisper/vegetable drawers cover On sliding rails

Crisper Cover Yes

Refrigerator Inner Door

No. of door shelves with transparent cover 1

Number of adjustable door shelves 2

Adjustable door shelves with wire support Yes

No. of bottle shelves 1

Bottle shelves with wire support Yes

Other Refrigerator features

MultiFlow Yes

Fan Yes

Freezer compartment features

Number of drawers 3

No. of shelves 2

Type of shelves Glass

Other Freezer features

Fast freezing compartment Yes

Other technical features

Functions display

Fast freezing button

Power on lamp

Temperature alarm lamp

Door open alarm

Symbols glossary

	4 stars freezing compartment for better food preservation.		The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.
	Energy efficiency class C		LED display: to show programmes, functions and options selected and the time to the end of the cycle.
	Economical mode: Analyzes fridge functioning during the activation and optimizes the operating cycle in order to reduce power consumption.		Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.
	Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.		Power saving mode: The power saving mode allows you to disable the refrigerator and keep the freezer working.
	LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.		Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.
	Air plus: keeps food fresher for longer.		

Benefit

Internal display

Internal display for targeted temperature control and a clean, minimalist design

Refrigerator Internal lighting

Interior lighting for perfect visibility of shelves in the refrigerator compartment

Plastic multiflow system

The Multiflow system ensures even distribution of cold air inside the refrigerator

Fan

The fan contributes to an even distribution of air inside the refrigerator

No-Frost system

The No Frost system prevents the formation of ice and contributes to better preservation of food in the refrigerator

External handle

The external handle ensures practicality and ease of use of the refrigerator

Fruit and vegetable drawer

The fruit and vegetable drawer ensures the best storage conditions for fresh food, avoiding any contamination

Inverter compressor

Inverter compressor reduces noise and vibration levels for a quiet and comfortable kitchen environment

Inverter compressor technology offers significant advantages for refrigeration systems, improving both performance and efficiency. Better temperature control ensures a more stable and constant indoor environment, preserving the freshness of food. This technology also results in reduced energy consumption, as the compressor adjusts its speed according to cooling needs.

Refrigerant gas R600a

Environmentally friendly R600a refrigerant gas contributes to rapid cooling with lower energy consumption

Climate class

Climatic class SN-T makes the appliance suitable for working at room temperature between 10 °C and 43 °C (50 °F ~ 109 °F)
